

# Julien CHATELAIN

## UI Designer

I'm a **UI Designer** with a background in **front-end development** crafting and building great user experiences for 12+ years. I've worked on projects in different spaces (education, enterprise communication, HR) and for different types of products (marketplace, SaaS, marketing website). I strive to design **simple, consistent and engaging** products that people can understand and use easily.

I'm looking to join a team of passionate people to build delightful experiences while **challenging myself** and **keep growing** as a **product designer**.

## Experience

### UI/UX Designer & Front Office Developer at Andjaro

Dec. 2016 to Oct. 2020 – Paris, France

Andjaro is a real-time workforce optimization platform that allows the mapping, reallocation and load balancing of internal workforce for large organizations.

- Joined a team of 11 people as the only designer
- Led the design of web and mobile applications that allows 250,000 staff transfers each year and has already generated €20 million in savings on our clients' temporary and fixed-term contracts budgets
- Defined and delivered new UX and UI for K2, Andjaro's core feature to help increase the number of staff transfers
- Created and managed Mountain, Andjaro's Design System to help reduce development time and harmonize the experience
- Led the design and front-end development of the corporate website to help marketing team increase the number of leads. Produced materials (prototypes, videos, illustrations...) to support marketing and sales efforts
- Contributed to the integration & front-end development of the web application

### Software Engineer at Fuze

Oct. 2015 to Oct. 2016 – San Francisco, USA

Fuze is the leading cloud communications platform for the enterprise.

- Joined a team of 4 people responsible for Fuze Out Of Meeting
- Introduced a UI Kit and Style Guide to bring consistency to the product and improve our development process
- Led the design for two features: profile and settings
- Worked on the integration & front-end development of the web application

### Web Designer at Fuze

Jun. 2015 to Oct. 2015 – Paris, France

- Helped design, develop and launch Fuze's next generation collaboration service called "Spaces"
- Led the design for a cross-spaces search feature for Fuze Spaces
- Led a redesign for Fuze App: account, plans, billing and settings

### UI/UX Designer & Developer at HexaTraining Technologies

Mar. 2008 to Jun. 2015 – Paris, France

LiveMinutes was a real-time collaboration platform, including project management, document editing, and web-conferencing. Fuze acquired LiveMinutes in 2015.

- Led the design and front-end development of the website, helping increase the signup rate by 15%
- Led the design for two features: dashboard and note taking
